

Visions & Voices

Our dreams. Our hopes.
Our lives. Our stories.

Visions and Voices presenters are adults with Fetal Alcohol Spectrum Disorder (FASD). Visions and Voices seeks to increase awareness in communities in order to reduce the stigma of FASD.

We believe storytelling is a powerful tool to increase dignity for those with FASD. Presenters have cultivated the art of sharing their stories of hope, struggle, and accomplishment with the public.

Presentations are offered in a variety of settings and are intended for anyone caring for or working with people with FASD.

Visions & Voices

Presenters are role models who are willing to share their stories of hope, struggle, and accomplishment with the public. Visions and Voices has been invited to present all over Manitoba to teachers, families, police officers, caregivers, social workers, and many others.

Visions & Voices is part of the

Touchstone
FASD PROGRAM
